ARMA NOVA Chapter Webinar

Wednesday, November 18th, Noon – 1:00 PM ET

Northern Virginia Chapter ARMA NOVA
Building Success Through Relationships

CMMC – A REAL WORLD DISCUSSION

Speakers: Dave Simprini, Scott Peyton and Adam Schrock, Partners at Grant Thornton

Grant Thornton LLP is pleased to host the ARMA NOVA chapter for our November meeting. Attendees who join this webinar will have a chance to hear from chapter president Dan Beard at the beginning of the meeting. Opening remarks will be followed by a presentation from three partners who lead the national CMMC consulting practice at Grant Thornton. They each have decades of experience over Public Sector, Cybersecurity, and Special Attestation engagements.

Dave Simprini, Principal, Public Sector Cyber Risk

In responding the DoD's Cybersecurity Maturity Model Certification (CMMC) requirements, many organizations are facing common and significant challenges. These challenges range from identifying the right CMMC Maturity Level for their organization, to establishing foundational infrastructure such as a dedicated enclave for Controlled Unclassified Information (CUI) and Federal Contract Information (FCI).

Join Grant Thornton's cross-functional team of Public Sector, cybersecurity and compliance professionals for an exclusive webinar on November 18th 11:45-1:00 EST, where they will share their experience and insight into CMMC readiness and compliance. This webinar moves past an overview of CMMC to provide a real-world discussion of the significant and often unexpected CMMC challenges companies are facing. This discussion will also discuss impacts of the late September DoD release of an interim rule introducing DFARS 252.204, which provides more details regarding the 5-year CMMC roll-out.
